Shipping Settings Overview

Go to **System** > **Settings** > **Shipping** to set up your shipping settings. Use this topic to learn about the following shipping options available to you.

- Zones: Allows you to divide the globe into geographical regions where the same shipping methods and rates apply for all addresses.
- Product Rules: Allows you to create rules for classes of products that require special shipping considerations.
- Carriers: Allows you to define your fulfillment options, your shipping carriers and their configurations, and your list of eligible shipping address locations.
- Methods and Fees: Allows you to apply shipping methods and fees to specific zones or product rules.

> ⚠️ Note that changes to these settings may not immediately take effect when processing orders. It may take up to 15 minutes for updates to be reflected in the system while the cache refreshes.
