

Return Fields

Use Return Fields to determine which fields are returned by the Product Suggestion API.

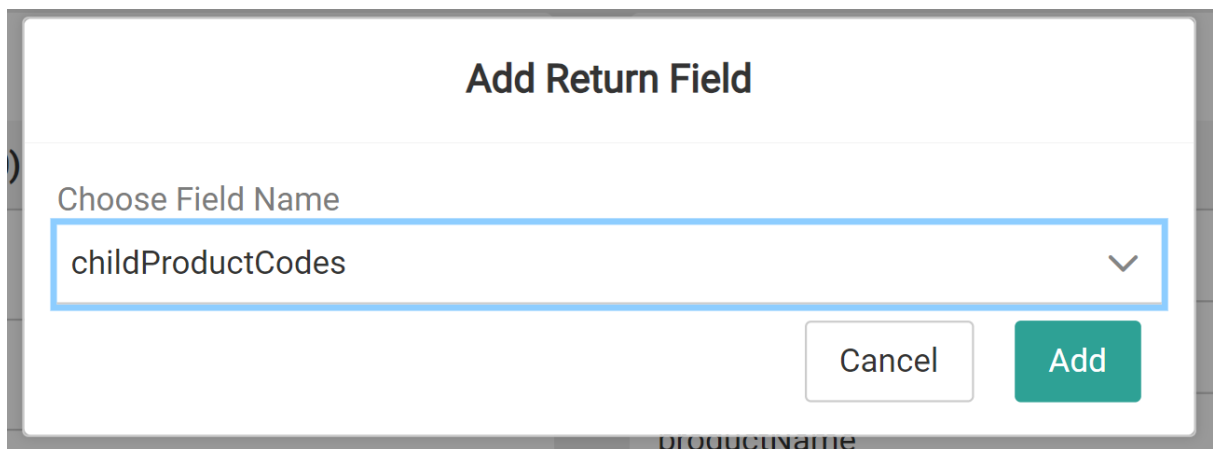

1. Click **Add Return Field** to include a new entry.

The screenshot shows a panel titled "Return Fields". At the top right of the panel is a green button labeled "Add Return Field". A red arrow points from the left towards this button. Below the header, there is a table with a single column titled "Name". The table contains four entries: "productCode", "productImageUrls", "productName", and "productTypeid". Each entry has a grey "Delete" button to its right.

Name	
productCode	Delete
productImageUrls	Delete
productName	Delete
productTypeid	Delete

2. A modal will appear. Make your selection from the drop-down menu and then click **Add**.

The screenshot shows a modal window titled "Add Return Field". Inside the modal, there is a label "Choose Field Name" above a dropdown menu. The dropdown menu is open, showing the selected option "childProductCodes" and a downward arrow icon. At the bottom right of the modal, there are two buttons: a white "Cancel" button and a green "Add" button.
