

# Customer Account Segment View

The Customer Account Segment view provides dimensions describing the customer segments you have defined and allows you to connect your customers with segments.

The measures calculated by this view are:

Name	Measure Type	Description
Account Segment Count	Count	Count of account segment records.

The dimensions included in this view are:

Name	Data Type	Description
Account Segment Created Date	Datetime	Date and time when the segment-account relationship was created.
Account Segment Updated Date	Datetime	Date and time when the segment-account relationship was last updated.
Customer Account ID	Number	Unique identifier of the customer account.
Segment Code	String	User-provided identifier for the segment.
Segment Created Date	Datetime	Date and time when the segment was created.
Segment ID	Number	System-generated unique identifier for the segment.
Segment Updated Date	Datetime	Date and time when the segment was last updated.
