Inventory In Stock Notification Subscription View

The Inventory In Stock Notification Subscription view provides dimensions describing the in stock notification subscriptions for your customers.

The measures calculated by this view are:

Name	Measure Type	Description
Inventory Notification Subscription Count	Count	Count of all in-stock notification subscription records.

The dimensions included in this view are:

Name	Data Type	Description
Customer Account ID	Number	The unique identifier for a customer account.
Email	String	Email for the customer who subscribed for the inventory notification.
Inventory Notification Created Date	Datetime	The date and time that the inventory notification subscription was created.
Inventory Notification Updated Date	Datetime	The date and time that the inventory notification subscription was last updated.
Location Code	String	The location that the in stock notification is for.
Notification Subscription ID	Number	The unique identifier for the in stock notification subscription.
Product Code	String	The user-provided identifier for the product.
Site ID	Number	The unique identifier for the site.
