

Shipment Package Tracking Number View

The Shipment Package Tracking Number view allows a shipment package to be connected to one or more associated tracking numbers.

The measures calculated by this view are:

Name	Measure Type	Description
Shipment Package Tracking Number Count	Count	Count of all shipment package tracking number records.

The dimensions included in this view are:

Name	Data Type	Description
Shipment Tracking Number Created Date	Datetime	The date and time the shipment tracking number was created within the system.
Shipment Tracking Number Updated Date	Datetime	The date and time the shipment tracking number was updated within the system.
Tracking Number	Number	Unique identifier for the site.
Site ID	String	A tracking number assigned to the package by the carrier.
